

MUHIMBILI UNIVERSITY OF HEALTH AND ALLIED SCIENCES

LATE WINDOW APPLICATIONS FOR POSTGRADUATE DEGREE PROGRAMMES FOR THE ACADEMIC YEAR 2025/2026

MUHAS is pleased to inform the public and call for applications to some of its postgraduate programmes in the late window after the first round of selections for the academic year 2025/2026.

APPLICATION PROCEDURE:

All applications shall be processed and submitted online through a portal accessible on the MUHAS website (<https://pgoas.muhas.ac.tz>). Applications submitted in hard copies shall not be processed.

APPLICATION FEE:

The application fee is Tshs 100,000/= for Tanzanian applicants and US\$ 50 for foreign applicants paid to the University.

This can be paid via Mobile Money (for local applicants, as per instructions on the application portal) or directly to MUHAS NBC Bank Account (for foreign applicants). The NBC bank account details for use by foreign applicants are listed below;

NBC Samora Branch

Bank Account Number 012105003582

SWIFT NO. SAMORA BRANCH NLCBTZTXXXXX

ATTACHMENTS:

Applicants shall be required to upload and submit clear scanned copies of the following documents;

1. An up-to-date detailed curriculum vitae.
2. Copies of ordinary level secondary education, advanced level secondary education, undergraduate certificates and academic transcripts. MSc Super-specialization applicants must also provide Master of Medicine (MMed) certificates and academic transcripts.
3. Internship certificate (MUST be provided as appropriate).
4. Birth certificate.
5. A letter from the employer showing readiness to release the applicant for studies.
6. For foreign applicants; receipt of payment of application fee.

All applicants must be proficient in written and spoken English. Successful applicants shall be required to submit original copies of certificates and transcripts for verification at the time of admission. Take note of changes in programme durations as indicated in appropriate sections.

DEADLINE: The deadline for submitting applications is **30th June 2025**.

LIST OF POSTGRADUATE PROGRAMMES FOR LATE WINDOW APPLICATIONS;

A. Available programmes in the Campus College of Medicine

1. Master of Science (MSc) Super-specialization degree programmes: -

- a) Cardiology (2 years)
- b) Respiratory Medicine (2 years)
- c) Urology (2 year)
- d) Neuroradiology (2 years)
- e) Plastic and Reconstructive Surgery (2 years)
- f) Paediatric Surgery (2 years)
- g) Cardiothoracic Surgery (3 years)
- h) Cardiothoracic Anaesthesia and Critical Care (2 years)
- i) Women's Imaging (2 years)
- j) Rhinology (2 years)
- k) Nephrology (2 years)
- l) Critical Care Medicine (2 years)
- m) Neonatology (2 years)
- n) Hematology and Blood Transfusion (2 years)
- o) Dermatology (2 yrs)
- p) Maternal and Fetal Medicine (2 yrs)
- q) Urogynaecology and Pelvic Reconstructive Surgery (2 yrs)

Eligibility Criteria:

MSc Cardiology:

- (i) Holder of MMed degree in Internal Medicine or Paediatrics and Child Health of this University or its predecessor with good academic and professional conduct.
- (ii) Holder of a degree equivalent to MMed degree in Internal Medicine or Paediatrics and Child Health from other recognized universities with good academic and professional conduct.

MSc Respiratory Medicine:

- (i) Holder of MMed degree of this University or its predecessor in Internal Medicine or Paediatrics and Child Health with good academic and professional conduct.
- (ii) Holders of a degree equivalent to MMed degree in Internal Medicine or Paediatrics and Child Health from other approved universities, with good academic and professional conduct.

MSc Urology:

- (i) Holder of MMed degree in General Surgery of this University or its predecessor with good academic and professional conduct.
- (ii) Holder of a degree equivalent to MMed General Surgery from other recognized universities with good academic and professional conduct.

MSc Neuroradiology:

- (i) Holder of MMed in Radiology of this University or its predecessor with good academic and Professional conduct.
- (ii) Holder of a degree equivalent to MMed in Radiology degree from other recognized universities, with good academic and professional conduct.

MSc Plastic and Reconstructive Surgery:

- (i) Holder of MMed degree in General Surgery of this University or its predecessor with good academic and professional conduct.
- (ii) Holder of a degree equivalent to MMed General Surgery from other recognized universities with good academic and professional conduct.

MSc Paediatric Surgery:

- (i) Holders of Master of Medicine (MMed) degree in General Surgery of this University or its predecessor with good academic and professional conduct.
- (ii) Holders of a degree equivalent to MMed degree in General Surgery from other recognized universities with good academic and professional conduct.

MSc Cardiothoracic Surgery:

- (i) Holder of MMed degree in General Surgery of this University or its predecessor with good academic and professional conduct.
- (ii) Holder of a degree equivalent to MMed in General Surgery from other recognized universities with good academic and professional conduct.

MSc Cardiothoracic Anaesthesia and Critical Care:

- (i) Holders of Master of Medicine (MMed) degree in Anaesthesia of this University or its predecessor with good academic and professional conduct.
- (ii) Holders of a degree equivalent to MMed degree in Anaesthesia from other recognized universities with good academic and professional conduct.

MSc Women's Imaging:

- (i) Holder of MMed degree in Radiology of this University or its predecessor with good academic and professional conduct.
- (ii) Holder of a degree equivalent to MMed Radiology from other recognized universities with good academic and professional conduct.

MSc Rhinology:

- (i) Holder of MMed degree in Otorhinolaryngology of this University or its predecessor with good academic and professional conduct.
- (ii) Holder of a degree equivalent to MMed Otorhinolaryngology from other recognized universities with good academic and professional conduct.

MSc Nephrology:

- (i) Holders of MMed degree in Internal Medicine or Paediatrics and Child Health of this University or its predecessor with good academic and professional conduct.
- (ii) Holder of a degree equivalent to MMed degree in Internal Medicine or Paediatrics and Child Health from other recognized universities with good academic and professional conduct.

MSc Critical Care Medicine:

- (i) Holder of MMed degree in Anaesthesiology or MMed in Emergency Medicine of this University or its predecessor with good academic and professional conduct.
- (ii) Holder of a degree equivalent to MMed Anaesthesiology or MMed Emergency Medicine from other recognized universities with good academic and professional conduct.

MSc Neonatology:

- (i) Holder of MMed degree in Paediatrics and Child Health of this University or its predecessor with good academic and professional conduct.
- (ii) Holder of a degree equivalent to MMed Paediatrics and Child Health from other recognized universities with good academic and professional conduct.

MSc Hematology and Blood Transfusion:

- (i) Holder of MMed degree in Internal Medicine or Pediatrics and Child Health of this university or its predecessor with good academic and professional conduct.
- (ii) Holder of a degree equivalent to MMed degree from other recognized universities with good academic and professional conduct.

MSc. Dermatology

- (i) Holder of MMed in Internal Medicine, Pediatrics and Child health or its equivalents from recognized institution.

MSc. Maternal and Fetal Medicine

- (i) Holder of Master of Medicine (MMed) in Obstetrics and Gynaecology or its equivalent from recognized institution

MSc. Urogynaecology and Pelvic Reconstructive Surgery

- (i) Holder of Master of Medicine (MMed) in Obstetrics and Gynaecology, Urology or its equivalents from recognized institution

2. Master of Science (MSc) Programmes:

- (a) Human Anatomy (2 years)
- (b) Biochemistry and Molecular Biology (2 years)
- (c) Clinical Pharmacology and Precision Therapeutics (2 years)
- (d) Clinical Psychology (2 years)
- (e) Applied Medical and Exercise Physiology (2 years)
- (f) Histotechnology (2 years)

Eligibility for Criteria: -**MSc Human Anatomy:**

- (i) Holders of the MD and DDS degrees of this University with a minimum GPA of 2.7 or average of "B".
- (ii) Graduates from other universities who have been admitted to the status of Doctor of Medicine and DDS or equivalent degree, provided they have a minimum GPA of 2.7 or average of "B".
- (iii) Holders of BSc in Human Anatomy from recognized universities with a minimum GPA of 2.7 or average of "B".
- (iv) Holders of BVM or its equivalent from a recognized university with a credit or

- distinction in anatomy with a minimum GPA of 2.7 or average of “B”.
- (v) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.

MSc Biochemistry and Molecular Biology:

- (i) Graduates with MD, DDS, BPharm, BScRTT, BMLS of this or other university with a minimum GPA of 2.7 or average of “B”.
- (ii) Graduates from other recognized universities who have completed their studies and earned BVM or equivalent with a minimum GPA of 2.7 or average of “B”.
- (iii) Holders of BSc in Biochemistry, Molecular Biology, Chemistry, Biology or Zoology, Biotechnology, and Microbiology with a minimum GPA of 2.7 or average of “B”.
- (iv) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.

MSc Clinical Pharmacology and Precision Therapeutics:

- (i) Holders of the M.D, DDS, BPharm and BSc Nursing degrees of this University with a minimum GPA of 2.7 or average of “B”.
- (ii) Graduates from other Universities who have been admitted to the status of MD, DDS, BPharm and BSc Nursing or equivalent, provided they have a minimum GPA of 2.7 or average of “B”.
- (iii) Holders of BSc in Pharmacology from recognized universities with a minimum GPA of 2.7 or average of “B”.
- (iv) Holders of Bachelor of Veterinary Medicine (BVM) or its equivalent from a recognized university with a minimum GPA of 2.7 or average of “B”.
- (v) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.

MSc Clinical Psychology:

- (i) Holders of BSc in Psychology, Counseling Psychology or equivalent of this or other recognized Universities with a minimum GPA of 2.7 or average of “B”.
- (ii) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.
- (iii) All applicants must have a minimum of 2 years post-internship working experience.

MSc Applied Medical and Exercise Physiology

- (i) Holders of the MD, DDS, BPharm, BMLS, BScRTT and BScN degrees of this University with a minimum GPA of 2.7 or average of “B”.
- (ii) Graduates from other Universities who have been admitted to the status of MD, DDS, B Pharm, BMLS, BScRTT and BScN or equivalent, provided they have a minimum GPA of 2.7 or average of “B”.
- (iii) Holders of BSc. in Physiology from recognized Universities with a minimum GPA of 2.7 or average of “B”.
- (iv) Holders of Bachelor of Veterinary Medicine (BVM) or its equivalent from a recognized University with a minimum GPA of 2.7 or average of “B”.
- (v) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.

MSc Histotechnology

- (i) Holders of Bachelor in Medical Laboratory Sciences (BMLS General of BMLS Histotechnology) or equivalent degree of this University, its Predecessors or other recognized Universities with a minimum GPA of 2.7 or average of “B”.
- (ii) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.

3. Master of Medicine (MMed) Programmes in:

- (a) Anatomical Pathology (3 years)
- (b) Clinical Oncology (**4 years**)
- (c) Haematology and Blood Transfusion (**4 years**)
- (d) Clinical Microbiology and Infectious Diseases (3 years)
- (e) Psychiatry (3 years)

Eligibility Criteria for MMed programmes:

- (i) A holder of a Doctor of Medicine (MD) degree of this University, its Predecessors or other recognized universities with a minimum GPA of 2.7 or average of “B” grade in relevant subject(s).
- (ii) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.
- (iii) All applicants must have a minimum of 2 years of post-internship working experience, except applicants for the MMed in Anatomical Pathology and Microbiology and infectious diseases programs.

B. Available programmes in the School of Dentistry

Master of Dentistry (MDent) in Oral Public Health (3 years)

Eligibility for MDent Oral Public Health:

- (i) A holder of a Doctor of Dental Surgery (DDS) degree of this University, its Predecessors or other recognized universities with a minimum GPA of 2.7 or average of “B”.
- (ii) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.
- (iii) All applicants must have a minimum of 2 years of post-internship working experience, except the applicants for MDent Oral Public Health.

C. Available programmes in the School of Pharmacy

1. Master of Science (MSc) in:

- (a) Pharmaceutical Management -Regular Track (2 years)
- (b) Pharmaceutical Management (Evening program) (2 yrs)
- (c) Medicinal and Pharmaceutical Chemistry (**3 years**)
- (d) Pharmacovigilance and Pharmacoepidemiology (2 years)
- (e) Medical Products Regulatory Affairs (2 yrs)

2. Master of Pharmacy (MPharm) in:

- (a) Industrial Pharmacy (**3 years**)
- (b) Clinical Pharmacy (**3 years**)

- (c) Quality Control and Quality assurance (2 years)
- (d) Pharmaceutical Microbiology (2yrs)

Eligibility for MPharm and MSc programmes (except MSc Pharmacovigilance and Pharmacoepidemiology and MSc. Medical products and regulatory affairs):

- (i) Applicants with a BPharm degree from a recognized University with a minimum GPA of 2.7 or average of “B”.
- (ii) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.

Eligibility for MSc in Pharmacovigilance and Pharmacoepidemiology and MSc. Medical products and regulatory affairs

- (i) Applicants with a BPharm, Doctor of Medicine (MD), Doctor of Dental Surgery (DDS), BSc Nursing or BSc Midwifery degree from a recognized University with a minimum GPA of 2.7 or average of “B”.
- (ii) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.

D. Available programmes in the School of Nursing:

Master of Science (MSc) in:

- (a) Emergency and Critical Care Nursing (3 years)
- (b) Mental Health Nursing and Psychotherapy (3 years)
- (c) Cardiovascular Nursing (3 years)
- (d) Nephrology Nursing (3 years)
- (e) Oncology and Palliative Care (3 years) Nursing
- (f) Midwifery and Women’s Health (3 years)

Eligibility for MSc Emergency and Critical Care Nursing, Mental Health nursing and Psychotherapy and Cardiovascular Nursing, Nephrology Nursing and Oncology and palliative care Nursing programmes:

- (i) Applicants with a BSc Nursing degree with a GPA of 2.7 of this University, its predecessors or other recognized universities with a minimum GPA of 2.7 or average of “B”.
- (ii) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.
- (iii) All applicants must have a minimum of 2 years post-internship working experience.

Eligibility for MSc Midwifery and Women’s Health Programme:

- (i) Applicants with a BSc Nursing degree or BSc Midwifery degree from MUHAS, its predecessors or other recognized universities with a minimum GPA of 2.7 or average of “B”.
- (ii) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.
- (iii) All applicants must have a minimum of 2 years post-internship working experience.

E. Available programmes in the School of Public Health and Social Sciences:

- (a) Master of Medicine in Community Health (MMed Community Health) (3 years)
- (b) Master of Public Health (MPH) – Regular Track (1 year)
- (c) Master of Public Health (MPH) – Executive Track (2 years)
- (d) Master of Public Health (MPH) – Distance Learning (**3 years**)
- (e) Master of Science in Health Policy, Management and Entrepreneurship (MA-HPME) (2 years)
- (f) Master of Science in Health Economics and Policy (MSc HEP) (2 years)
- (g) Master of Science in Environmental Health (MSc EH) (2 years)
- (h) Master of Science in Project Management, Monitoring and Evaluation in Health-Executive Track (MSC PMMEH-Executive Track) (2 years)
- (i) Master in Social and Behavioral Change for Health (Regular Track) (2 years)
- (j) Master of Science in Nutritional Epidemiology (MSc NE) (2 years)
- (k) Master of Social and Behavioral Change for Health -Executive (2 yrs)
- (l) MSc. in Occupational Health and Safety (2 yrs)
- (m) MSc. In Digital Health (2 yrs)
- (n) Master of Bioethics (2yrs)

Eligibility Criteria: -

MMed in Community Health: -

- (i) An applicant who has Doctor of Medicine (MD) degree with a minimum GPA of 2.7 or average of “B”.
- (ii) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.

Master of Public Health (MPH) – Regular Track, Executive Track and Distance Learning

- (i) A graduate from any recognized University in health-related fields of study including but not limited to medicine, pharmacy, dentistry, nursing, radiology, laboratory sciences, midwifery, sociology, anthropology, health statistics, health service administration, environmental health sciences, demography, biology, food science, epidemiology and health information sciences with a minimum GPA of 2.7 or average of “B”.
- (ii) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.

Master of Science in Health Policy, Management and Entrepreneurship (MA-HPME)

- (i) Holders of a first degree in Medicine, Dental Surgery, Pharmacy, Environmental Health Sciences, Nursing, Sociology, Anthropology, Health Statistics, Demography, Biology, Food Sciences, Human Nutrition, Veterinary Sciences, Epidemiology, Health Information Sciences and other related fields with a minimum GPA of 2.7 or average of “B”.
- (ii) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.

MSc Health Economics and Policy

- (i) Holders of Doctor of Medicine (MD), Doctor of Dental Surgery (DDS), Bachelor of Pharmacy, BSc Nursing, BSc Midwifery, BSc (Environmental Health Science), Bachelor of Medical Laboratory Sciences (BMLS), BMLS Haematology and Blood

Transfusion, BMLS Parasitology and Medical Entomology, BMLS Clinical Chemistry, BMLS Histotechnology, Bachelor of Science Radiation Therapy Technology (BSc RTT), Bachelor of Biomedical Engineering with a minimum GPA of 2.7 or average of “B”.

- (ii) Holders of a first degree in Economics, Statistics, Actuarial Sciences, food sciences, veterinary sciences, epidemiology, and other related fields with strong analytical skills with a minimum GPA of 2.7 or average of “B”.
- (iii) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.

Master of Science in Environmental Health

- (i) Holders of a BSc in Environmental Health Sciences with a minimum GPA of 2.7 or average of “B”.
- (ii) Holders of a first degree in science-related subjects (BSc Env. Eng., BSc Chemical and Processing Eng, BSc General etc.) with a minimum GPA of 2.7 or average of “B”.
- (iii) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.

Master of Science in Project Management, Monitoring and Evaluation in Health - Executive Track

- (i) Graduates this or other recognized Universities in any field of study that includes but not limited to health disciplines; economics, anthropology, statistics, environmental health sciences, demography, biology, food science, epidemiology, health information sciences, community development, public administration, public health, social works and sociology with a GPA of at least 2.7 or average of “B”.
- (ii) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.

Master in Social and Behavioral Change for Health (Regular and executive Track)

- (i) Graduates from MUHAS in BSc EHS, BSc N, MD, DDS with a minimum GPA of 2.7 or average of “B”.
- (ii) Graduates from other recognized Universities in BSc EHS, BScN, MD, DDS, LLB, BSc (Ed), BA (Ed), BA (Econ.), BA (Soc.), BSc. (Food Science and Technology) and BA (Pol. Scs.) or other health-related fields with a minimum GPA of 2.7 or average of “B”.
- (iii) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.

Master of Science in Nutritional Epidemiology (MSc NE)

- (i) Graduates of this or other recognized Universities in the fields of Nutrition Sciences, Medicine, Dentistry, Laboratory Sciences, Veterinary and Agricultural Sciences, Pharmacy, Environmental Health Sciences, Nursing, or any other relevant health related fields with prior nutrition training.
- (ii) Graduates with bachelor's degrees in other fields of study such as statistics, epidemiology, demography, food science, dietetics, social science, and public health may also apply provided they are graduates from recognized Universities.
- (iii) Applicants must have scored at least a GPA of 2.7 in their undergraduate degree programme, and B grade at a subject specific to Nutrition Epidemiology.
- (iv) Applicants with Postgraduate Diploma with GPA of 3.0 in addition to undergraduate degree.

MSc. in Occupational Health and Safety

- (i) Holder of bachelor degree in Environmental Health Sciences, Medicine, Pharmacy, Dentistry, Nursing, Midwifery, Laboratory Sciences, Radiotherapy, Sociology, Occupational Therapy, Physiotherapy, Health Statistics, Healthy Services Administration, Demography, Biology, Food Science, Epidemiology, Engineering, Health Information Sciences or any relevant field with an average of “B” or a minimum GPA of 2.7
- (ii) Postgraduate Diploma in environmental and occupational health related professions with an average of “B” or a minimum GPA of 3.0.

MSc. in Digital Health

- (i) Graduates in medicine, biomedical engineering, pharmacy, dentistry, nursing, radiology, laboratory sciences, midwifery, environmental health, statistics, mathematics, demography, food sciences, veterinary sciences, nutrition, information sciences, Information Technology, informatics, computer sciences, computer engineering, economics, health systems management, business studies, health service administration, epidemiology and other related fields with at least a GPA of 2.7 from recognized Institution.
- (ii) At least two years of work experience in the health sector.

Master of Bioethics (MBE)

- (i) Graduates in health-related fields from any recognized university with a minimum GPA of 2.7 or average of “B”.
- (ii) Mid-career applicants e.g. lawyers, administrators, social workers, veterinarians, researchers, industrialists, regulators and other professionals engaged in health associated fields with a minimum GPA of 2.7 or average of “B” at undergraduate level.
- (iii) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.

F. Available programme in the Institute of Traditional Medicine:

- a. Master of Science in Herbal Products Development (2 years)
- b. MSc. in Quality Assurance and Quality Control of Herbal Products (2 yrs)

Eligibility Criteria:**MSc Herbal Products Development:**

- (i) Graduates from recognized Universities with BPharm or its equivalent, BSc degree in Chemistry, Zoology, or Botany as one of the major subjects or a degree in Biotechnology, Biochemistry, Nutrition, or Chemical engineering with a minimum GPA of 2.7 or average of “B”.
- (ii) Postgraduate diploma in any relevant field with a minimum GPA of 3.0 or average of “B”.

MSc. in Quality Assurance and Quality Control of Herbal Products

- (i) Holder of Bachelor of Pharmacy, Bachelor in Pharmaceutical Management, BSc.in Chemistry, Food technology and Nutrition, Laboratory technology, Microbiology, Environmental chemistry and related fields. With at least one year working experience and at least a pass in chemistry at A- Level.
